

BOCRA APPROVES REDUCTION IN PRICES FOR INTERNET DATA BUNDLES

Botswana Communications Regulatory Authority (BOCRA) continues to enhance competition in the communications sector by ensuring that services are accessible throughout the country at affordable prices and appropriate quality.

BOCRA recently engaged mobile operators to discuss opportunities for reducing prices for data bundles. The outcome of the engagement was substantial reduction in prices for data bundles and substantial increase in volumes at unchanged prices by Mascom Wireless and Orange Botswana. The price reductions and the volume increases

are for various postpaid and prepaid packages of varying validities of 1 day, 2 days, 1 week, 2 weeks and 1 month.

The effective price reductions are expressed per Megabyte (MB) or per Gigabyte (GB) for ease of appreciation.

Prices for BTC data bundles remain unchanged.

The tables below show the various data bundles and the improved price and volume offerings:
